

ESD CLOTH WRISTBANDS

COMFORTABLE AND ANTI-ALLERGENIC - QUICK ADJUSTMENT

Wristbands and ground cords are mandatory in all E.P.A. environments. Our program includes high quality, anti allergenic, comfortable and durable wristbands, with a selection of High Grade ground cords for longer durability, all including safety 1 Mohm resistors.

Art. ONE TOUCH

Anti-allergenic adjustable elasticized cloth wristband. The unique easy fastening transparent buckle allows adjustment and release by pulling or releasing the loose band. No colourants, no sharp edges, no metals. Allergy free.

Art. ONE TOUCH BAND/4

Wrist band with 4 mm male snap

Art. ONE TOUCH BAND/10

Wrist band with 10 mm male snap

Art. GREEN TOUCH BAND/4

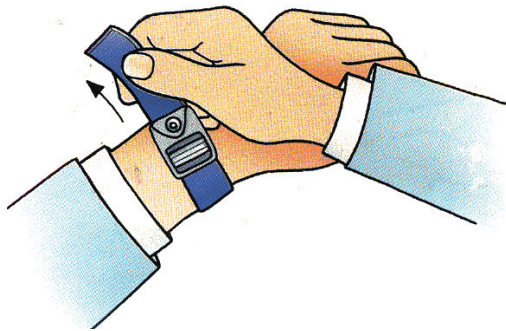

Green wrist band with 4 mm male snap

GREEN TOUCH (designed for lead-free production lines)

ONE TOUCH, the newly designed ESD wrist band, outperforms all existing wristbands on the market due to the exclusive design (no sharp edges), the absence of colourants (no markings left on the skin) and the curved anatomic buckle.

The extraordinarily soft elastic band is insulative in the outside and conductive in the inside (by means of a special anti allergenic fibre). Allows a fast and firm adjustment on any wrist size and quick release: the elastic band will not be stressed and therefore will last longer in time.

VELCRO ADJUSTABLE CLOTH BAND

Art. STRAPPO

Anti allergenic velcro cloth wristband. Easy adjustment, allergy free, plastic and metal free. Visible ESD symbol. Custom marking available, please ask.

Art. STRAPPO 4

4mm male snap version.

Art. STRAPPO 10

10mm male snap version.

ADJUSTABLE METAL WRISTBAND

Art. 2000 STEEL TOUCH

Metal adjustable wristband (jewelry-grade expandable stainless steel). Insulation with a 3-layer oven-baked coating. Inter-connectable plastic clips extenders. Best comfort and no need to stock up on different sizes. Individual packing and traceable lot-coding for total quality control and easier auditing.

DUAL BAND SET

Art. DUAL TOUCH

Dual cloth wristband set, includes the dual ground cord.

Elastic band with plastic extenders. Soft and comfortable, lot traceable, features 90°C stereo banana termination.

SHORT CORDS 4mm & 10mm

1502-2 WIRE BANANA 15-4

4mm female snap to 4mm banana + croco.
Length: 1.5m

1502-2 WIRE BOTTONE F15-4

4mm female snap to female snap 10mm.
Length: 1.5m

1502-2 WIRE BANANA 15-10

10mm female snap to 4mm banana + croco.
Length: 1.5m

1502-2 WIRE BANANA 15-10

10mm female snap to female snap 10mm.
Length: 1.5m

LONG CORDS 4mm & 10mm

1502 WIRE BANANA 30-4

4mm female snap to 4mm banana + croco.
Length: 3.0m

1502 WIRE BOTTONE F30-4

4mm female snap to 10mm female snap. Length:
3.0m

608 WIRE BANANA 30-10

10mm female snap to 4mm banana + croco.
Length: 3.0m

ESD LEATHER CLOGS & SANDALS

These ESD shoes are widely used into the electronic industry to drain static charges accumulations from the operator to ground. Our ESD leather shoes program includes clogs and sandals. All our shoes feature upper natural leather and polyurethane soles in order to ensure continuous drainage to ground with the maximum comfort and perspiration. Meet IEC 61340-5-1 std.

Art. ZAD 9000

Type	clog
Upper	perforated natural leather
Inner sole	natural leather
Sole	polyurethane
Belt	on request
Footprint	anti slip
Res. To ground	≤ 3.5 MOhm
Sizes	from 35 to 47

Type	open sandal
Colour	white
Upper	natural leather
Inner Sole	natural leather
	anatomic
Sole	polyurethane
Footprint	extra-safe anti slip
Resistance To ground	≤ 3.5 MOhm
Sizes	From 35 to 47

Art. NATURA OPEN

MICRO-FIBRE ESD SHOES

(MACHINE WASHABLE 30° C)

These models are designed with an extra comfortable internal lining and heel shock absorption for long working days. Special ESD anti-slip soles, resistant to oil and fuel, ensure constant drainage of all static charges. The upper "Microsafe" breathable material provides comfort and flexibility. All models are washable in washing machine at 30°C (rust proof eyelets). Available in white or black in any size. Sizes: 35 - 47 (2 - 12). The SS models meet EN 345 Std.

With safety toe cap. All other models meet requirements of EN 347 Std.

ESD MICROFIBRE IN-SOLES

Art. FTB-MICROFIBRE (35-47)

SPARE WASHABLE IN-SOLES

ESD SPORT SUEDE SHOES

These shoes are designed for the maximum resistance and the most comfortable style. The sole is double-layer polyurethane, acid and oils resistant. The footplant is large (Mondopoint 11) and the upper part is suede leather. All shoes have static dissipative ESD features. SC shoes feature composite (metal-free) toe cap protection EN 345.

Art. ECO 580 SC

Comfortable closed safety sandals, ESD symbol, brown colour suede upper shoe, Sizes 36-48, composite (metal-free) toe protection. Meet EN 345.

Art. NEWGYM SC

Laced safety sport shoes, blue colour suede upper shoe, ESD symbol. size 36 to 48, composite (metal-free) toe protection. Meet EN 345.

NEWFLEX SS

Laced safety sport shoes, brown suede upper shoe, ESD symbol, stainless steel toe protection, size 36 to 48. Meet EN 345.

Art. FLEXA

Laced sport shoes, brown suede upper shoe, ESD symbol, size 35-47. Meet EN 347.

Art. POWER BOOT SC

Laced safety boots for warehouses and colder climates, blue upper part, ESD symbol, sizes 36 to 48, composite (metal-free) toe protection. Meet EN 345.

Art. KORA

ESD cork open sandal, ESD symbol, natural leather upper part. Sizes 35-49

FOOTGROUNDERS

LONGER LASTING, TOP-QUALITY, CUT-PROOF

Long lasting extra-comfortable footgrounders designed for longer personnel ESD protection. Available 1 or 2. Mohm resistors and modified versions.

STV GROUNDERS USE SPECIAL 3-LAYERS SOLE-RUBBER

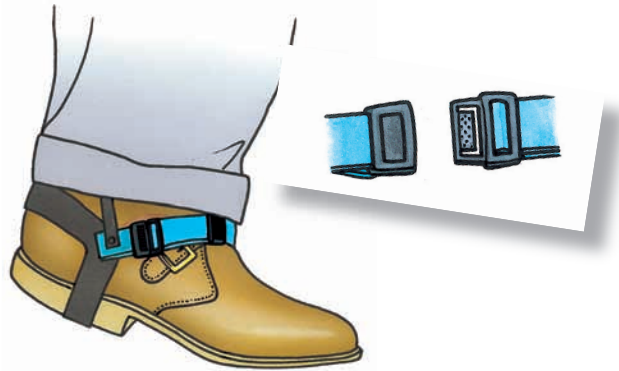

Special 3-Layers sole-rubber prevents from cuts and tears also in harsh environments and under continued usage, increasing lifetime

COMFORT CLIP

Art. STV-U-2R-CLIP

- No velcro adjustment.
- Special comfort clip-locking with softer elastic, band.
- 2Mohm resistors to provide a total 1 Mohm resistance to ground when both feet are standing.

VELCRO

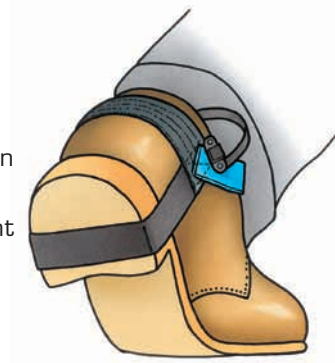

Art. STV-U-1R-VELCRO

- Easy velcro adjustment.
- 1Mohm resistors to provide protection to grounded operators

ELASTICATED HEEL VELCRO

Art STV-U-2R-EL-VELCRO

- Elasticated back heel band.
- 2Mohm resistors to provide a total 1 Mohm resistance to ground when both feet are standing
- Conductive rubber tub will not tear and provides quick and constant charges drainage.

FULL SOLE GROUNDER

Art. STV-SOLE

- Full sole coverage, great comfort
- 1Mohm resistor
- Conductive rubber tub will not tear and provides quick and constant charges drainage.

VELCRO TOE GROUNDERS

Art. STV-D-2R-VELCRO

- Easy velcro adjustment.
- 2Mohm resistors to provide a total 1 Mohm resistance to ground when both feet are standing

ESD WASHABLE IN-SOLES

Art. FTB

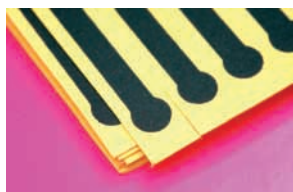

New removable static-dissipative in-soles manufactured with hygienic washable materials, FTB ensure a total drainage of the static charges from the body of the operator, through the footwear, to ground. Extra comfort and reduced wearout of the shoe. Thickness: 2 mm
Volume resistance: $1 \times 10^6 < R < 1 \times 10^7$ Ohm

DISPOSABLE FOOTGROUNDERS

Art. STV ONE SHOT

Disposable daily footgrounder strips. A light adhesive sticks on the heel of the shoe.
The strip grips on the border of the upper shoe.
Designed for visitors and operators.
Pack of 100 pcs

SHOECOVERS WITH CONDUCTIVE STRIP

Art. CLEAN COVERSHOE

Designed to ground operators into cleanrooms, Clean Covershoe is made of elasticized blue polyurethane with a conductive ribbon for grounding. One size fits all.

PERSONAL BADGE HOLDER

Art. BADGE DELUXE

Personal badge holder, rigid plastic transparent
Designed for personal tags, magnetic cards etc.
Ext. dim 91 x 60mm
Max card dim: 89 x 55mm

OPERATOR SPECTACLES

Art. EGOG

Protection spectacles with durable antistatic polycarbonate lenses. The lenses are coated against scratches and are protected from UV rays. Ask for detailed program

PEQ ESD SAFE COATS - NATURAL COTTON & ESD FIBERS

PEQ ESD coats are polyester free: 96% cotton and 4% conductive fiber (longer durability-weight 135gr/m²). This formulation has been designed to ensure maximum natural comfort and minimization of charge generation.

LONG LASTING

PEQ fabric withstands frequent machine washing cycles (50 up-following instruction) without losing ESD features.

ESD FEATURES

PEQ coats meet or exceed specification of IEC 61340-5-1:

- Shielding static fields generated by street clothes
- Grounding sitting operators on ESD chairs
- Preventing tribo charging on the surface of the coat.

Art. PEQ 909W	long coat man white
Art. PEQ 908W	long coat woman white

Art. PEQ 907BLUE	short coat woman blue

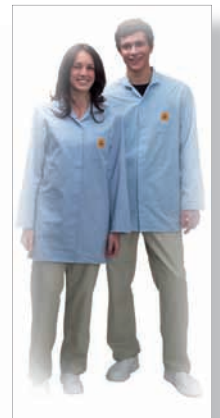

WHITE LONG COATS

BLUE LONG COATS

WHITE SHORT COATS

BLUE SHORT COATS

PEX ESD POLYESTER COATS

ESD FABRIC COATS FOR CLEANROOM

Designed both for ESD protected production areas and for cleanroom-grade ESD protected areas. The PEX coats ensure static-charges drainage. Non-linting clean fabric and robustness for all static safe applications Delivery subject to MOQ, please ask.

Art. PEX 909W long coat man white

Art. PEX 908W long coat woman white

PEK POLY-COTTON COATS

ESD MIXED FABRIC

The PEK white coats are designed for high ESD protected laboratories. Higher resistance to wearout (180g) ESD symbol, mixed polyester-cotton Formulation. ESD symbol.

Art. PEK 909W long coat man white

Art. PEK 908W long coat woman white

ESD POLO SHIRTS

Art. POLO SS

ESD polo-shirts, elasticized natural cotton and conductive fiber (140 gr./m²). Available all sizes, blue colour. Symbol

ESD TROUSERS

Art. 906

Designed with strong ESD fabric Unisex model with pockets Colour kaki (neutral)

ESD POLO FOR COLDER CLIMATES

Art. PULLOVER

ESD sweat-shirts, designed for colder climates, long sleeves with zip. Colour dark blue.

ESD WAREHOUSE SAFETY JACKET

Art. 928

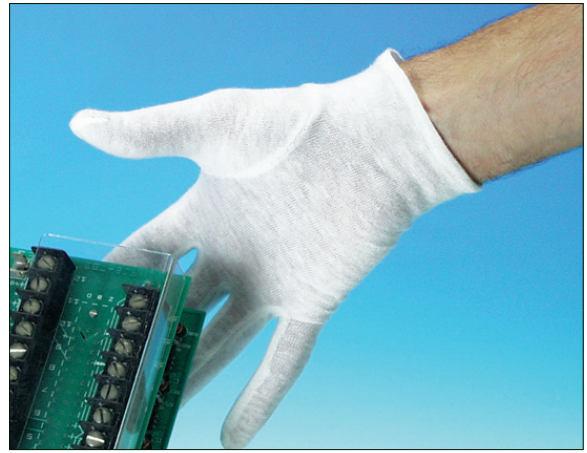

ESD high visibility reflecting cover gilet for increased safety in warehouses

ANTISTATIC COTTON GLOVES

Art GNB

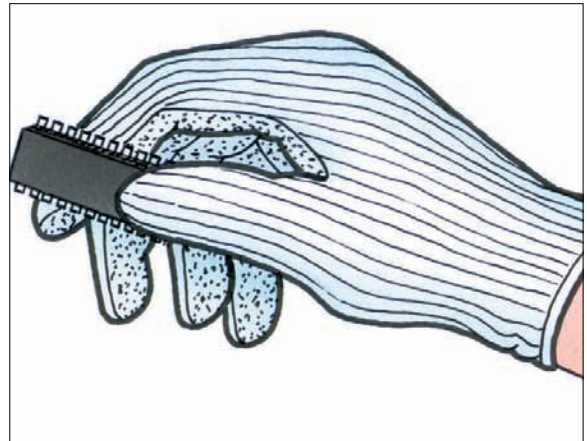

Cotton gloves for electronic assembly, minimize static generation. Elastic, transpirant and comfortable, enable a very precise handling. Sizes available: medium and large.

CONDUCTIVE PALM GLOVES

Art GNK DOT

Conductive gloves for electronics with textured puncture-proof palm surface, and precision anti-slip grip. Sizes available: small, medium and large and x-large.

ESD FINGER FIT KNITTED GLOVES

Art. GNC RUBBER

New ESD knitted seamless gloves manufactured with perspirant fabric, top finger rubber fit for the best grip and perforation resistance (designed to handle components and boards). Size available: small, medium and large.

ESD FULL PALM FIT KINTTED GLOVES

Art. GNC PALM

New ESD knitted seamless gloves manufactured with perspirant fabric, full palm rubber fit for the best grip and palm perforation resistance (designed to handle components and boards). Size available: small, medium and large.
